Professional Saudi team

WHY 3LINES

30+ Years Of Aviation Expertise

Trusted across civil and military operations.

WHAT WE DO

Services

Provide Spare Parts

Providing all original spare parts for civil and military aircraft and supporting equipment.

Maintaining And Repairing Of Spare Parts

An experienced, professional team of engineers and technicians delivering the best maintenance and repair services.

Supporting Ground Equipment

Maintenance and support for civil and military aircraft auxiliary equipment, with spare parts to ensure operational readiness.

Structure And Frame

Maintain and repair structures and tires to ensure safety and optimal performance, with the necessary spare parts.

Supporting The Simulator System

Supporting the simulator system by providing a range of specialized supporting services.

Hydraulic, Pneumatic Equipment And Components

Specialized services to maintain and repair hydraulic and pneumatic systems efficiently and reliably, with the required components.

Procurement

A dedicated procurement team sourcing genuine parts, equipment, and components – dependable global supply from the United States and worldwide.

Engineering

A dedicated engineering department led by senior engineers, delivering technical solutions, integration, and hands-on support.

AI Solutions

Sovereign AI – command centers, document intelligence, and operations agents. Bilingual (Arabic & English) with 100% in-Kingdom data residency.

US Government Support Services

We provide world-class US Government support services.

RADAR System

Military and civilian RADAR project development and management.

Cybersecurity

Protecting critical systems and data with a sovereign, in-Kingdom approach – assessment, hardening, monitoring, and incident response.

WHO WE SERVE

Sectors we serve

Defense & Aerospace

Spare parts, MRO and technical support for military platforms.

Civil Aviation

Supply and support for commercial and civil aircraft operators.

Government & Public Sector

Trusted programs and support services for government entities.

Energy

Equipment, generators and technical services for energy operations.

Logistics & Supply Chain

Global sourcing, procurement and dependable delivery.

Technology & AI

Sovereign AI, IT infrastructure and digital solutions.

BUILT FOR MISSION-CRITICAL

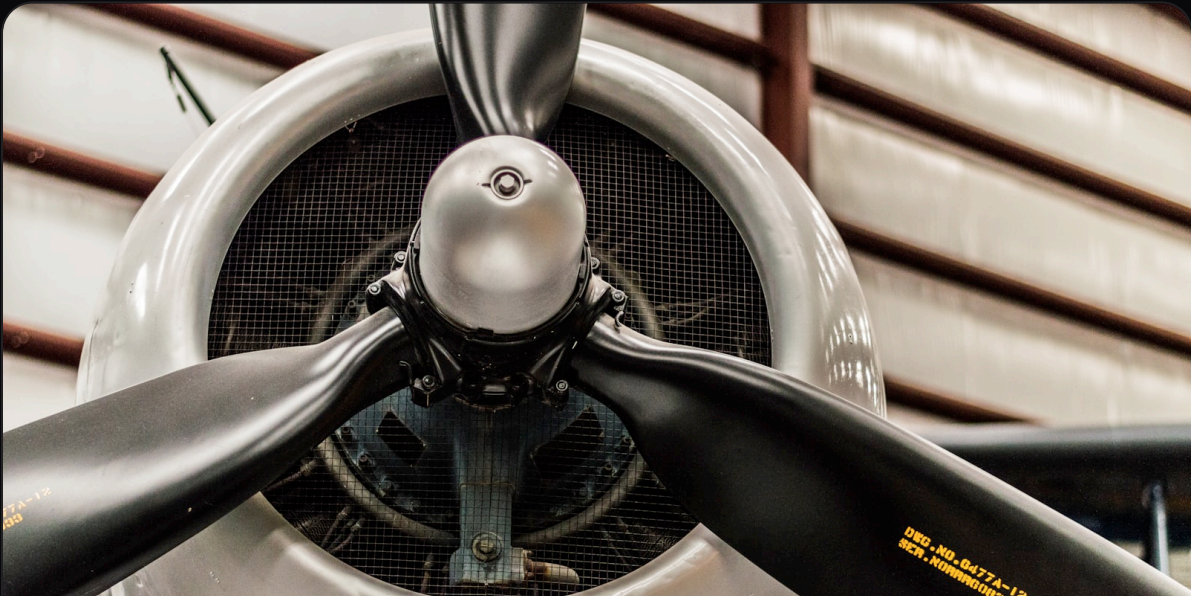

Defense-grade capability, delivered in the Kingdom
